PROFILE

Frontend Developer with 3+ years of experience building responsive, scalable, and accessible web applications using Angular and React.js. Proficient in component-driven architecture, reusable UI libraries, and translating UI/UX designs into high-performance interfaces. Experienced in cross-browser compatibility, WCAG accessibility standards, and frontend performance optimisation.

TECHNICAL SKILLS

Frameworks	Angular · React.js · Bootstrap
Languages	JavaScript (ES6+) · TypeScript · HTML5 · CSS3
UI Practices	Responsive Design · Accessibility (WCAG) · Cross-Browser Compatibility · Performance Optimisation
Tools	Git · VS Code · Chrome DevTools · Figma · Power Apps

EXPERIENCE

Frontend Developer
Nov 2021 – Present

Kizora Software Pvt. Ltd., Nagpur

- Developed scalable, component-driven web applications using Angular and React.js, following best practices for modular architecture and code reusability.
- Built reusable UI component libraries in React.js for the SOLV SaaS platform, converting Figma designs into performant, accessible components.
- Developed Angular-based enterprise application modules with clean data binding, routing, and service integration.
- Designed and implemented responsive, cross-browser-compatible layouts using HTML5, CSS3, and Bootstrap.
- Applied WCAG accessibility standards across all interfaces for seamless experience on all devices and assistive technologies.
- Optimised frontend performance using Chrome DevTools, improving page load speed and rendering behaviour.
- Collaborated with designers and backend developers in Agile sprints to deliver features on schedule.
- Built Power Apps interfaces for Leave Management and Help Desk tools, streamlining internal workflows.

KEY PROJECTS

> **AI-Powered Retail Platform (React.js)**
> Designed and developed responsive UI for an AI-driven product platform, focusing on modern layout, intuitive navigation, and enhanced user engagement.

> **E-Learning Web Application**
> Built consistent, reusable UI screens for an online learning platform, improving usability and visual structure across multiple user workflows.

> **Internal Enterprise Tool Suite (Power Apps)**
> Developed workflow-based interfaces with optimised forms, dashboards, and approval management systems for internal business operations.
